

GOLD REFLEX C4

5W/30

31/08/2017

PRODUCT CATEGORY: 4 STROKE ENGINE OIL

The **GOLD REFLEX C4 5W/30** is fully synthetic top tier lubricant for newest passenger cars equipped with catalytic after-treatment exhaust systems, formulated with latest additivation technology. It is designed to deliver the requirements of the ACEA C4 specification and targets the more severe needs of Renault RN0720 specifications. The product is developed with a new reduced SAPS technology that makes the **GOLD REFLEX C4 5W/30** a true low SAPS lubricant, being formulated at 0,5% Ashes and 0,05% Phosphorus preserving the efficiency of exhaust emission systems and protecting them for a longer life.

The complete additivation package in combination with premium quality synthetic base stocks provide an outstanding wear and oxidation properties that keep the engine protected for long time. The oil allows long drain intervals maintaining original characteristics and without significantly deteriorating.

Given the low volatility and viscosity of the synthetic components used, it contributes to a potential reduction in oil consumption and a fuel economy increase.

- **High level of protection**
- **Compatibility with catalytic devices (DPF, TWC) and rubber seals**
